

airbuddy  
KITCHEN FAN

YOUR BEST FRIEND  
IN THE KITCHEN

**Crompton**

## **Gifting homemakers a breezy cooking experience.**

Crompton is committed to engineer products that adds convenience and comfort for the user. We continuously strive to improve our entire product portfolio by gaining first hand feedback directly from users.

Understanding the Indian homes, we found that the kitchen is the hottest place due to limited exhaust facilities. Indian homemakers spend about 4-5 hrs in the kitchen facing the inconvenience.

The Airbuddy, which is designed keeping you in mind, has flexible installation and an adjustable louver for desired air flow that allows the homemaker to enjoy a cool breeze of air without disturbing the gas flames while cooking.

Its sleek and compact design can be easily accommodated on the platform or mounted on the wall or under the cabinet horizontally and vertically.

## CEILING FAN VS

Uneven air flow

Disturbs gas flames  
& other activity

Air flow spreads  
across the room

## THE AIRBUDDY

Uniform and  
soft air flow

No disturbance  
to gas flame

Focussed air flow  
as intended

Discover the joy of  
**SWEAT-FREE**  
cooking!

# PRODUCT FEATURES

## Personalised Soft Airflow

Ensures a comfortable cooking environment with soft airflow that does not disturb the gas cooking flame & reaches upto 6 feet distance from the fan

## Maximum Portability

Lightweight compact design for efficient utility in any position, anywhere you need it

## Easy Maintenance

The surface is easy to clean in just one wipe and the product comes with removable filters for a hassle-free upkeep at home

### Safe for Children

Blade-free design ensures safety for children

### Flexible Installation

Can be wall mounted horizontally or placed vertically on a designer base, as per your convenience

### Controlled Air Flow

Control the speed using the knob & the air flow direction using the louvers so that the breeze can focus on you without distruring the gas flame
