PRECISION PIPELINE

Round Conduit uPVC G.I. & M.S. Pipes & Fittings

Precision Round Conduit uPVC Pipes and Fittings

are manufactured from a specially formulated unplasticised polyvinyl chloride (uPVC) to meet the most stringent Indian and international standards. Our products are made of extra super high impact materials which make them safe to use in harsh environments. The products are manufactured in accordance with IS 9537-Part 3, BS EN 61386-21 for uPVC conduits, IS 3419:1988 and BS 4607 for uPVC fittings.

Our Premium range of **Transparent Round conduit uPVC pipes and fittings** are also available in Red, Green, Blue & Yellow colours on request.

Applications

Channelising concealed and surface wiring.
Telecommunication and cable ducting.

DIMENSIONS OF ROUND CONDUIT uPVC PIPES IS 9537-PART 3

Laser engraved pipes

Fire retardant, corrosion free

Easy and quick installation

Colours

Black, Grey, Ivory & White

Red, Green, Blue & Yellow

Features

- Various diameters and grades.
- Light, medium and heavy mechanical stress, to suit various applications and site conditions.
- Easy and fast installation.
- Wide range of component maximises application.
- Durable and impact resistant.
- Fire retardant • Corrosion free.
- Thermal resistant from -5° C to +60° C.
- Precision circular boxes and adaptable boxes are provided with M4 brass insert with a load suspension capacity of 3 Kgs at 60° C.

Precision G.I. & M.S. Conduit Pipes are manufactured from a rigorously tested raw material, in accordance to Indian standards IS 9537 Part-2.

G.I. Conduit Pipes & Fittings are coated by hot dipped galvanizing plant in which iron or steel is coated with a layer of zinc to protect them from corrosion or rusting. This coating renders a safety finish to the conduit which is durable in industrial installations, coastal line atmosphere & thermal power stations.

M.S. Conduit Pipes & Fittings inner and outer surfaces are treated and coated with paint that help them protect from rusting.

G.I. - Silver

M.S. - Black

Application

Channelizing Electrical surface wiring and cable ducting.

Features

- Anti -rust coating and good finish.
- Easy to cut.
- High resistance to corrosion.

DIMENSIONS OF G.I. & M.S. CONDUIT PIPES IS 9537-PART 2

Corrugated Flexible Conduit Pipes & Fittings

Precision Corrugated Flexible Conduit Pipes come in a wide and comprehensive range of material variants to suit variety of applications. These conduits are manufactured in slit and non-slit variants based on the final application for wiring purposes.

Polypropylene Flexible Conduits are the best solution for applications where resistance to constant flexing and vibration is essential. These conduits display excellent flexibility, moreover, they are light weight and easy to install which makes them very popular. Temperature resistant from -5°C to +90°C.

Fire Retardant Polypropylene Flexible Conduits are self extinguishing. These conduits are manufactured from UL94 V2 rated material, ideally suited for automobile applications, wire harnessing, electrical wiring, cable protection and an envelope to LPG gas conductors. Temperature resistant from -5°C to +90°C.

Polyamide Flexible Conduits are manufactured from flame retardant and self extinguishing (PA6) material, making them suitable for high temperature zones where human life or components are at risk, high resistance to corrosion by most mineral oils, acids and alkalis. They are widely used in automobile applications and have temperature resistance upto +120°C.

Steel Wire Reinforced Flexible uPVC Conduits are manufactured with soft polyvinyl chloride (uPVC) wall fused to high tensile steel wire in a coiled state. These conduits are unaffected by inorganic acid, alkali, saline water. Most suitable for electrical wiring in building, switch boards, panels, machinery, dust collectors, air dusting, exhaust of fumes, shrouds of railway coach wiring and hospital equipments. Temperature resistant from -5°C to +60°C.

Colours

Black, Grey, Ivory & White

Red, Green, Blue & Yellow

Fire retardant,
corrosion free

Precision Galvanised Steel Flexible Conduit

Precision Steel Flexible Conduit Pipes are made from Galvanized steel, helical wound strips having a Square Lock type Construction and are manufactured in accordance to Indian/British Standards in Galvanized zinc coating with spiral corrugated pattern finished surface. Mostly used as low pressure hose in Industrial domestic air Conditioning, Ventilation systems and as mechanical protection for insulated electrical cables & wires which may be exposed to atmospheric conditions.

Precision Galvanised Steel Flexible Conduit with PVC Coating

Precision PVC Coated Steel Flexible Conduit Pipes are made from Galvanized steel, helical wound strips having a Square Lock type Construction and are manufactured in accordance to Indian/British Standards in poly vinyl coating Black/Grey colour with spiral corrugated pattern finished surface.

Most suitable for Mechanical protection of cable and wire in tunnels, hospitals, high-rise office blocks and public buildings.

CORRUGATED FLEXIBLE CONDUIT PIPES

DOUBLE WALL CORRUGATED (DWC) Pipes & Fittings

Precision DWC PE Pipes are manufactured from HDPE material in accordance with IS 16205 (Part 24) : 2018 / IS 14930 (Part 2) : 2001 for cable ducting. The outer layer having corrugation and inner layer with plain and smooth surface for excellent mechanical & electrical properties for cable ducting.

Application

These pipes are meant for protection of cables for Telecom Ducting, Power Cable Distribution, Electrical Applications, indoor ventilation.

Features

- Excellent underground life
- Leak proof tightness
- Flame retardant
- Excellent impact strength
- Resistance to external influences IP 67,
- Chemical resistance
- Protection against rodent infestation

Colour

Black & Orange

Fire retardant,
corrosion free

uPVC Mini/Maxi Trunking Profile & Fittings

Precision uPVC Mini/Maxi Trunking Profile and Fittings are manufactured from high impact unplasticised polyvinyl chloride (uPVC) grade material capable of withstanding the most hazardous conditions on-site and exceeds the most stringent requirements of Indian and International standards. The product range brings a whole new world of sophistication and convenience to home, office and commercial establishments and is in accordance with Indian Standards IS 14927-Part 2 and BS EN 50085-2-1. Mini Trunking Profile are also available with self fixing tape for instant and easy installation. Clip on lid provides security while allowing easy maintenance.

Precision uPVC Maxi Trunking Profile Cable Management System is designed for convenience and safety with compartments for separate wiring applications. Maxi Trunking Profile fittings are available in moulded and fabricated form, thus adding a sleek touch to your interiors.

Application

To organize and protect cables on surface.

Features

- Fast installation and easy maintenance.
- Secure and elegant look.
- Wide range of sizes to suit all cabling requirements
- Durable and impact resistant
- Fire retardant
- Corrosion free
- Thermal resistant from -5°C to +60°C

Colours

Ivory, White

Fire retardant,
corrosion free

uPVC Panel Trunking

Precision uPVC Panel Trunking are manufactured from high impact unplasticised polyvinyl chloride (uPVC) to ensure panel & machinery safety in extreme conditions. These trunkings are ideal to channelise medium and big size panels & various applications where economy, space saving, safety and durability are paramount.

Applications

To conduct, organize, and protect cables inside electrical and telecommunication panels, industrial machinery wiring, Computer LAN wiring and data centers.

Features

- Non – brittle, flame retardant, wrap proof
- Vertical slids and detachable strips facilitates systematic wiring, permits faster connections, additions and fault tracing of wires
- Avoids bunching, taping and provides complete electrical insulation
- Unique cover locking design prevents popping of wires while removing cover
- Elongated slots at bottom allows flexible mounting
- High tensile strength 390 kg/cm²
- Thermal resistant from -5°C to +60°C

OPTIMAL GRIP LID

- Precision's Panel Trunking lid design provides high capacity to sustain leads of wire in the case of a cable positioned in the centre of the duct and avoids them from riding up.
- Quick snap on/off and non-slip assembly forms a firm rigid channel.

- Interlocking lid and channel is optimised to make the system easier to install and to provide discrete routing of cables.

- Uniform grip and thickness throughout the length system with independent non-slip lid, keeps cover in place during high vibration applications.

STANDARD SLOT

THIN SLOT

WALL PERFORATION RIB DESIGN

- All wall perforation ribs of Precision Panel Trunking have larger rounded slots for easy insertion of wires and cables.
- Rounded design with burr-free edges to prevent any injury to the hand of the user or to the cable insulation.

ELONGATED MOUNTING SLOTS

- Perforated base with elongated slot allows flexible mounting and better fastening of the cables.
- Robust sections.
