# ABOUT US

Whitelion is a Home Automation company which currently develops & manufactures smart switches that are compatible with technologies such as Alexa and Google Home. It aspires to be India's leading electrical brand across the spectrum of all products related to Smart Homes. The USP of the company is that it manufactures globally trending Home Automation technology right here at home in India.

The company produces advanced products that are a testament to Whitelion's dedication to quality, safety and fine engineering.

Whitelion produces two series of smart switches - Quartz and Posh. Quartz switches have a glassy appearance due to being made of quartz material and Posh switches use plastic. Whether used at the home or in the office, both series offer a seamless design that fits with the interiors for an elegant look.
